

Greenway Health Optimization Services

Overview of Benefits

✓ Front office billing and optimization insights

Improve patient registration, scheduling, and charge posting. These improvements contribute to higher patient satisfaction and loyalty.

✓ Maximize your ROI

Fully optimize your software to take advantage of your tech stack, ensuring you get the most value from your EHR.

✓ Unlock Growth Potential

Eliminate inefficiencies and streamline workflows, to increase ability to take on more patients, without sacrificing the quality of care.

✓ Streamline Practice Efficiencies and Reduce Staff Burnout

Collaborate with experts to customize adoption, implementation, and training plans to ensure you are following recommended best practices.

Discover How Our Services Can Help Your Practice Run More Efficiently

With Greenway's Optimization Services, we will partner with you to look closer into your Practice Management and Clinical workflows, helping you to optimize efficiencies and increase productivity. As a result, your practice will gain meaningful insights and helpful tips to get the most out of your Greenway system – saving you valuable time and resources.

Capabilities

- **Phoenix** – Extensive diagnostic review of workflows across your entire Greenway ecosystem, including remote sessions and onsite training, concluding with best practice recommendations.
- **Deep Dive** – Provides a thorough review of your practice's current setup and workflow across your Greenway Product ecosystem, including best practice sharing where you need it.
- **Amplify** – Includes a rapid, remote diagnostic of your current front office and clinical workflows combined with best practice sharing.
